Sir,

With reference to your memo no 14707-15 / DA 280-92 dated 6th March last, and subsequent reminder I have the honor to submit herewith the budget estimates of the General Municipalities in this District for the year 1902-903 together with a brief memo explaining the budget items.

Encl. No. 1

Memo explaining the items in the budget estimates of the Municipalities in the Hassan District, for the ensuing year 1902-903.

---

Receipts I octroi

1. Probable receipts during the 2nd half of 1901-1902.

In all the Municipalities the estimates of receipts during the 2nd half of 1901-1902 have been based generally upon the actual receipts during the 2nd half of 1900-1901. But in the case of the Hole-narsipur and Hassan Town Municipalities, there has been a decrease in the estimate owing to the prevalence of plague for some time during the 2nd half year.

2- Estimates for the ensuing year 1902-1903 These are based as usual

usual upon a consideration of the actual receipts during 1900-1901 and the actual and probable receipts during the 1st and 2nd halves of the current official year 1901-1902. In all the Municipalities and especially in those of the Hoshangabad and Hussain Zaman which suffered from an attack of plague during the current year, the decrease in the estimates is accounted for by the fact that they are based on a consideration of the possible recurrence of plague in the Municipalities once infected and the contingency of an outbreak of plague or other cause affecting Municipal revenue in the case of other Municipalities. In the case of such items as Kerosine oil, tobacco, betel leaves &c as are not likely to be affected by extraneous causes such as plague &c the figures

figures sanctioned for the current year have been repeated wherever possible with slight variations here and there.

II and VII Tax on houses, buildings and lands and Mohatarfa :—

The estimates for the ensuing year under these two heads have been generally based on the Jamabundy figures for the last official year 1940–1941. But here also as in the case of receipts under the head owing the element of plague and the consequent balance of arrears of revenue that may be left outstanding are taken into consideration in estimating the receipts for the ensuing year.

VIII Rents Markets —

No amount is shown under this head in the Hassan Town Municipality

Publicity for the ensuing Official year as it is found that none of the vegetable dealers in the town are likely to prefer a market wherein to deal as they cannot afford to pay even the small rent levied from them. This is justified by the small realizations during the previous year and still smaller collection during the current year.

X Sale of houses and lands :- A sum of Rs 1500/- is shown as the estimate under this head in the Hassan Municipality for the ensuing year as against Rs 1000/- sanctioned for the current year as it is expected that the sites in the northern extension for building purposes will be largely demanded by the public for sale.

Other items :- For the Hassan Town Municipality a sum of Rs 150/- is shown for the ensuing year as against Rs 50/-

Sanctioned.

Sanctioned for the current year as the sale proceeds of fruits &c. grown in the Fruit garden made over by the Forest Department to the municipality are proposed to be credited to this head. The other items of a fluctuating nature in the respective Municipalities call for no special remarks but it may be stated that the estimates for the ensuing year in some of the items in excess of the sanctioned allotments for the current year in the several municipalities are justified by the actual receipts during 1900–1901 as has been already stated.

## Expenditure

### II Head office charges. —

The figures sanctioned for the current year are repeated.

repeated for the ensuing years as far as possible.

III Collection :- In the Krishna Municipality provision has been made for a Muktadam on Rs 8/- per month from the beginning of the ensuing Official Year as the collection by the Sharbhag which has been collecting the Octroi Mahatanka on Commission is not considered satisfactory and as it was resolved by the Town Municipal Board that the employment of a new man for the work is likely to improve matters on the ground that the Sharbhag has many duties to attend to and cannot devote his time solely to the collection of Municipal Revenue. A separate Communication will be

be made on the subject for the orders of Government.

## IV Conservancy establishment.

In the Hassan Town Municipality provision is made for four more Scavengers at an additional Cost of Rs 2828/- for the ensuing official year in accordance with the resolution of the Hassan Town Municipal Board in its meeting held on 2nd April 1902. The provision made for 3 Sweepers at Rs 8/- for the current year has been reduced to Rs 7/- each as the provision for the current year was intended for special men to be sent for from Sholapur during the plague season; and this is now considered unnecessary. A separate reference will be

be made on the subject and orders of Government obtained.

VII. Lighting The sum of Rs 9201- shown as against Rs 11701- for the current year in the Hassan Town Municipality is explained by the fact that the current years provision was for lamp posts to be indented for.

VIII Public Works :- Details under this heads are furnished in Statement No. II :- The provision made for the ensuing year on account of works for which provision was also made for the current year is due to the same not being appropriated for the purpose during the current year.

IX. Hospitals and Dispensaries

A

A sum of Rs 345 for the ensuing year is shewn as against Rs 300/- sanctioned for the current year in the Hassan Town Municipality, the excess being on account of mileage to the midwife of Hassan -

As regards other municipalities bearing a portion of the cost of Local Fund dispensaries a sum of Rs 100/- is provided for the ensuing year under the head Furniture, Clothing and bedding" being 1/3 of the cost of such dispensaries under the said item, in accordance with the resolution of the District Fund Board in its meeting on 21st February 1902.

X Education There has been no change in the provisions under this head.

XI Cattle pound The figures shown

/.

Shown under this head in statement No. 1 include both Commission and feeding charges due to pound-keepers. An increased estimate is made under these heads in Municipalities with a view to pay up the Commission to pound-keepers which have fallen into arrears for some time past owing to the bills not having been received in time from the Amildars of the Talukas, who have been instructed in the matter.

Gardens :- The decreased estimate for the ensuing year under this head (Rs. 130/- against 216/-) is explained by stating that the current year's extra provision was on account of providing a boring apparatus to the gardens in the town of Hassan.

Other items In the Hassan Town

Town Municipality the decreased estimate for ensuing year being Rs 605/- as against Rs 695 for the current year under "Park necessaries" is due to two of the peons employed in the Park having been dispensed with as unnecessary. The provision on account of plague expenses has been repeated in the case of all the Municipalities. The other items do not call for any special remarks.

Closing balance for Rs 1902-1903

This has been based in the case of all the Municipalities on the actual closing balance of the respective Municipalities as intimated by the Comptroller and the Estimated Receipts and Expenditure during the years 1901-1902 & 1902-1903

Receipts.

2. 1 Octroi. The decrease under this head in the budget of Hassan is said to be due to the possible recru -descence of plague in the town, which was once infected. The estimate is allowed to stand.

3. ii & vii House and Mohatarfa taxes. The estimates under these heads based on the Jamabandy account of 1900-01 are passed.

4. VIII Rents (c) Markets. No estimate is entered under this head in the Budget of Hassan, as vegetable dealers in the town are said to be too poor to pay the small rent levied for the occupation of the market stalls for vending vegetables. It should be explained when and at what cost the market was constructed and why the prescribed rates of fees if any should not be reduced so as to induce the vegetable sellers to occupy the marketon payment of such re -duced fees.

5. X Miscellaneous (a) Sale of lands

An increase of Rs,500 in the town of Hassan by the sale of building sites in the northern extension of the town. The estimate is passed.

6. X Miscellaneous (m) Contributions

The omission of any estimate under this head against Rs 139 tered in the budget of 1901-0

towards the cost of maintenance of the District Fund roads in the town should have been explained. This should be done.

7. Opening balance. In lieu of the estimates proposed under this head, the marginally noted figures will be adopted as the correct opening balance in the present budgets.

Expenditure.

8. iii Collection (a) Octroi. The Budget of Arsikere newly provides for a Mutsaddi on Rs.8 per mensem for collecting Octroi and Mohatarfa taxes as the Board considers that the employment of a new man for the work is likely to improve matters on the ground that the Shanbhog has many duties to attend to and cannot devote his time solely to the collection of Municipal revenue. Pending the issue of final orders on the President's reference separately received, the provision will be retained.

9. IV Conservancy. The Municipal Board of Hassan propose to employ 4 additional scavengers for introducing daily conservancy system into the town to ward off the recrudescence of plague in the town and to reduce the high rate of 8 Rs per mensem proposed to be given to the 3 men to be specially sent for from Sholapur, which is now considered unnecessary, while the Municipal Board of Arsikere recommend the enhancement of pay of the conservancy cart from Rs. 15 to Rs.18 per mensem owing to the

the outbreak of plague in the town and consequent scarcity of carts for conservancy purposes. The latter is sanc-tioned tentatively for one year and the provision for the former will be retained pending the issue of final orders on the President's letter No.558 dated 13th May 1902 on the subject.

10. VII Lighting. In the Municipalities of Hassan, Alur, Sakleshpur and Belur, lighting is managed by contract while in other places where arrangements for lighting exist, by Amani. It is observed that no explanation is furnished as to the necessity for pro-viding Rs.13 for the purchase of oil, wick &c in Belur, where lighting is given out on contract and as to the number of lamps lit in other Municipalities where lighting is managed by Amani. The omission should be supplied. Pending information however the provi-sions will stand.

11. VIII Public Works. The provisions made under this head are passed subject to the submission of detailed estimates for works costing Rs.500/ and upwards.

12. IX Charitable grants. The increase under this head is chiefly due to the provisions made for 1/3rd: cost of "clothing and bedding" required in dispensaries as also for travelling allowance and fees for ex-tra cases payable to the midwife of

of Hassan. As the cost of bedding and clothing required for in-patients is debitable entirely to district Funds, the amounts entered on this account will be disallowed and the provision reduced accordingly.

13. The other items call for no remarks and are passed.

14. The budget estimates of receipts and expenditure of the several Municipalities in the Hassan District for 1902-03 are sanctioned as per particulars given in the accompanying appendices, of which an abstract is given below:-

| Municipalities. | Opening Balance | Receipts | Total including Balance | Expenditure | Closing Balance |

4 of the above, I beg to state that the Estimate for Constructing the Vegetable market as Hasan amounting to Rs 491 was sanctioned by Government in their Proceedings No. 5981-2 L.F. 11-94 dated 5th October 1894 and an outlay of Rs 496-10-2 has been incurred towards the same. Vegetable dealers in the Town are not inclined to pay any fees however small the rates may be, in as much as they find it Convenient to sell vegetables just by the side of the road and there save even the small fee proposed to be levied on them. Besides the building is located in an inconvenient part of the Town, being built

at

the Corner of the first fire range from the Agraharam and the Northern extension - There the dealers there do not command a large sale of their articles and they readily will more unwilling to pay any fee. The practice of levying a fee was however tried with more success.

2 As to the item of receipt of a sum of Rs 139 under the head of contributions in the Gudiyatham Town Municipality for 1901 02, I beg to state that in the Budget Estimates this item should have been included in the Municipal Budget for 1902 03 also.

3. As to para 10 of Government order, I beg to state that ...

of Rupees 13 provided in the Budget of the Belize Municipality is intended to meet the cost of chimneys for lamps and other damages in cases resulting from accidents.

4 — In this connection, I beg to state that in the municipalities of Hassan, Alur, Salle spin of Belize in which provision is made under the head "Lighting Contractors" lighting is not given out on contract by a regular sale in public auction after the notification being duly published. The arrangement made in the said municipalities is to engage one man to undertake the cost of lighting the lamps at a certain rate for each lamp. The details of even this arrangement varies

in

in the different municipalities
In some of these one Shopkeeper
has been employed to supply the
oil which was for lighting the
lamps, lighting itself being done
by the municipal servants while
in others a lamp lighter has
been appointed who undertakes
the whole cost of lighting at a
fixed rate for each lamp. In
such cases, the municipality
bears the cost of repairing
damage & rebuilding from accident
and other unforeseen circum-
stances not due to the neglect
of the lamp lighter.

5. The number of lamps
lit in the several municip-
alities in the District and
the average cost incurred for

Secretary to the Government of
His Highness the Maharaja
of Mysore,
General and Revenue Departments
Bangalore.

Sir,

With reference to Government Proceedings No 18230-1 / L.F. 18-02 Dated 29th June 1903, passing orders on the explanations furnished in regard to certain items in the Budget of the Municipalities in this Dist for

for 1902-03, I have the honor to state that the building constructed for the Vegetable market at Hassan, on an outlay of Rs 496-10-2 cannot be turned to any practical use being situated in an inconvenient corner of the town as already represented. It is proposed to construct a new market building in another suitable place and to utilize the materials of the present market building for the same.

2—. It is hoped that by levy of a small and reasonable fee from the Vegetable dealers in the new market the amount invested on it and the old market building may be realised gradually in course of a few years.

I have the honor to be,
Sir,
your most obedient Servant
